

OWLS *of*

MINNESOTA

Copy about the various species of owls in MN and their importance.

This will be a brief web page about the different species of owls found in the state of Minnesota. There will also be a mention of the International Owl Center located in Minnesota and their annual Owl festival held in the spring. I will create a page for the different species that will include an image with a snippet from wikipedia about that species. I intend to include a sound clip of each species. This will ultimately be a 14 page site with current plan.

SPECIES

Owl Image

Eastern Screech-Owl

Owl Image

Great Horned Owl

Owl Image
